# Use Cases

**Group Number:** 22
**Authors:** Kinjal Shah, Danial Shaikh
**Student ID:** 100743551, 100698628
**Date:** 2021/04/10

Use Case 1- This is the user case for signing in and the components related to it such as purchasing, signing up, browsing, selecting, refunding. The two actors are the new user and the registered user.

Use Case 2- This use case is for the software developer and the registered theatre. It shows that after signing in, the developer has to update the user interface, add or remove movies and add the old movies to a list.

Use case 3 - This use case is between the facilitator and the software developers to schedule meetings regularly.
